

**Convenient Height Adjustment**

Stand or sit in front of the incubator, and adjust its height to match your comfortable working position. Convenient electrical height adjustment operatable from the front or rear.

**Smoothly adjustable bed**

Smooth tilt adjustment of the bed. The bed easily slides out of the incubator in any position. A compact electronic scale fits directly under the bed for convenient weight monitoring.

Easy access to the baby

The patented Dräger ergonomically shaped handports give optimum access to the baby. They open and close silently. Hose and cable ports are provided at both sides of the incubator.
